VILLA MUST STAY AWAY FROM CAPITAL

PRESIDENT CARRANZA TELLS REBEL CHIEF NOT TO COME TO MEXICO CITY — TOMORROW A HOLIDAY.

Mexico City, Aug. 18.—General Carranza has ordered Villa not to come to Mexico City. Wednesday has been declared a national holiday, in honor of the entry of the main body of the constitutional army and General Carranza, the new provisional president. Elaborate preparations have been made for the inauguration of the new regime. Already reconstruction plans are under way and it is expected that through freight and passenger traffic will be resumed over the national railway lines by way of Laredo and El Paso within a fortnight.

"SOUL MATE" BURY'S VICTIM OF TRAGEDY

HER EX-HUSBAND CLAIMS ONLY HIS CHILDREN'S BODIES, WHO ALSO WERE VICTIMS OF A NEGRO'S RAGE.

Spring Green, Wis., Aug. 17.—Mrs. Mamah Bouton Borthwick, one of the five victims yesterday of an enraged negro chief, was buried tonight by Frank Lloyd Wright, a Chicago architect, for whose sake she had parted from her husband and to be with whom she had, for three years, braved the reproaches of relatives and friends.

Edward Cheney, Mrs. Borthwick's former husband, who came for the bodies of his little son and daughter, John and Martha, also victims of the negro's rage, returned with those bodies to Chicago. He paid no attention to the tragedy of his former wife. Her body was left solely to Wright, who had come from Chicago on the same train with Cheney.

Submerged in a mass of flowers picked from the garden she had tended, and attended only by Wright, his son and two of his relatives, the body was taken just at sunset to the Wright lot at Unity cemetery near his bungalow.

She was buried without any religious ceremony, although the Rev. Jenkin Lloyd Jones, her former pastor in Chicago, by a coincidence, was a guest at the next farm. It was Wright's wish that she be buried without ceremony.

The body of Emil Burdell, a draughtsman, was sent to Milwaukee to be buried on Tuesday.

Mrs. Julian Carleton, wife of the negro maniac, who was arrested an hour after the tragedy, was taken to Dodgeville, the county seat, where her husband is in jail.

"I have two children who were murdered here," Cheney told friends. He made no mention of his former wife. Cheney and Wright both stopped at the home of Andrew T. Porter, whose wife is Wright's sister. They rode from the station to Porter's home in separate automobiles which each had ordered from Chicago.

Thomas Brinker, a laborer on the Wright estate, who was reported last night to have died from his wounds, was still alive tonight, although physicians expected his death any minute, they said.

The motive which actuated Julian Carleton, the negro, in his murderous attack, still remains a mystery.

A suspicion that he had been influenced by an outside source rested on a remark by Carleton immediately after his arrest and when he feared his death by poison was imminent. "I'll tell you before I die," he said to a deputy sheriff.

Later when physicians told him he

was in no danger from death by poisoning, the negro declined to explain his former statement.

"I did it in self defense," he said. Neither statement was given any credence by the authorities at Dodgeville, where Carleton was locked in jail.

Wheat Jumps Upward Again.

Chicago, Ill., Aug. 18.—Wheat advanced five cents today, September touching 94½.

BRING IN YOUR EXHIBIT FOR STATE FAIR

SECRETARY WEST IS PREPARING THE CARTER COUNTY EXHIBIT AND WANTS THE CO-OPERATION OF EVERY FARMER.

Secretary West of the chamber of commerce has begun getting the Carter county agricultural exhibit together for the annual state fair at Oklahoma City this fall and urgently requests Historical Society county who has something exceptionally good in the way of products of the farm or garden to bring it to the club rooms in the court house, where it will be classified and placed with the exhibit. This morning O. K. Darden brought to the chamber of commerce a sheaf of Sudan grass which is something new in this section of the southwest and which is said to be exceptionally fine for a hay crop. The sheaf stands over seven feet high and is well worth viewing by farmers who are interested in the production of hay.

AN ALLEGED HOUSEBREAKER IN THE TOILS

YOUTHFUL ONE, ACCUSED OF BEING IMPLICATED IN SEVERAL PETTY THEFTS, HAS RECORD BEHIND HIM.

Lewis King, 19 years of age, was taken into custody by Deputy Sheriff Jake Williams yesterday and placed in the county jail charged with robbing several rural residences in close proximity to the city.

Deputy Williams states that the mode of operation was to wait until the people were in the city Saturday afternoon, when he would make excursions to the country and enter any house he found vacated, by the owners and take what householders own, take what he could find and sneak back into town. Deputy Williams has been on his trail all the week, and says he landed him with some of the goods on his person. He will be given a preliminary trial Monday and Mrs. Curtis says she is going to try to have him sent to Granite instead of Pauls Valley, where he was formerly confined.

There seems to be an epidemic of petty larceny going on in the city at present. Only yesterday one woman had a hand bag and twenty dollars taken from her home while she was at a neighbor's. This money she was intending for some necessities of life, but when she went for it an hour after, the bag, with its contents, were gone. The bag, riddled of its contents, was afterwards found near a hedge close by.

Let the little Want Ads do your work.

WEATHER FORECAST

New Orleans, La., Aug. 18.—The weather forecast for Oklahoma for tonight and Wednesday is partly cloudy.

BELIEVED BIG BATTLE IS NOW ON WITH ARMIES NEAR WATERLOO

Brussels Reports That Serious Engagement Is Now Believed in Progress—British Official Announcement of Landing of Expeditionary Force in France Made Today for First Time but Whereabouts and Strength Is Still Guarded—Japan's Ultimatum Delivered.

London, Aug. 18.—The most important revelation today was the official announcement that a British expeditionary force has been landed in France. This is the first authoritative indication of the whereabouts of the British army, but the disposition and strength is still jealously guarded.

The three allied armies are now working together on a coherent campaign and the policy of secrecy has extended to Belgium.

The official bureau announced today that there has been no casualties as yet in the British army.

An Antwerp dispatch says cavalry patrols have been sighted north of that city and the entire Antwerp civil guard has been ordered to man the forts.

A Brussels official dispatch says the Germans in their fighting recently with the Belgians have assumed strictly defensive tactics and are in entrenched positions. The battle to the north is reported as turning to the advantage of the Belgians, who blocked the Germans' pivoting movement southward. The Germans are reported to have burned the towns of Vise and Bruzweiler, alleging that the inhabitants there fired on the Germans. At Vise the inhabitants, at bayonet points, were driven into Holland, fourteen dying en route.

Japan's Ultimatum Delivered.

Washington, Aug. 18.—Japan's ultimatum was delivered to Germany through Copenhagen today.

Fighting Since Monday.

Brussels, Aug. 18.—There is good reason to believe that a serious engagement, in which the Belgian and French troops are opposing the German advance, has been going on since Monday south of Brussels. No definite news has been received. The German troops appear to be continuing their activities but an official announcement says that the German incursion toward Brussels has been definitely stopped, adding, "The situation remains excellent for our army."

The removal of the seat of government from Brussels to Antwerp, it believed, was merely a precaution.

Russian Mobilization Completed.

London, Aug. 18.—The Russian embassy here has been informed by the St. Petersburg that the Russian mobilization is now complete and that eleven members of the Russian imperial family are already at the front. The communication says that the only point where the Germans have crossed the Russian frontier is in Poland, west of Warsaw. The Russian vanguard has occupied five points in the enemy's territory, capturing several hundred prisoners.

The Germans and British are fighting in Togoland, Africa. The English there have captured two German trains.

A Rome dispatch says that an Austrian torpedo boat was sunk by a mine.

SIX STEAMERS CARRY MAIL TO LIVERPOOL

THE POST OFFICE DEPARTMENT MAKES ARRANGEMENTS WITH RED STAR LINE FOR SIX STEAMERS.

New York, Aug. 18.—The American Red Star line announced today that by special arrangements with the post office department, six steamers, flying the American flag, will inaugurate tomorrow a twice-a-week Atlantic service to Liverpool.

TEN PACKERS CALLED BEFORE GRAND JURY

CHICAGO MEAT PACKERS REQUIRED TO APPEAR IN CONNECTION WITH GOVERNMENT INVESTIGATION.

Chicago, Ill., Aug. 18.—Subpoenas were issued today requiring the presence of ten leading Chicago packers before a federal grand jury, in connection with the increase in meat prices.

CONDITION IS UNCHANGED.

Rome, Aug. 18.—The condition of the pope remains unchanged today.

Crescent Banker Dies at Guthrie. Guthrie, Okla., Aug. 17.—Grant Norris, a prominent banker of Crescent this county, died suddenly today of heart disease.

FIRST BALE ARRIVED HERE YESTERDAY

T. M. JONES, FARMER ON THE G. A. NUTT FARM, SIX MILES NORTH OF CITY, WAS FIRST ONE TO BRING BALE.

Yesterday afternoon, the first bale of cotton was brought to the city by T. M. Jones, who is working the G. A. Nutt farm six miles north of the city, and will be ginned tomorrow morning by Jones Brothers. The gin was not in position to take care of the staple today.

Wetzelheimer & Daube have contracted to take the first bale, and Secretary West of the Chamber of Commerce has raised a purse that will be divided between the first, second and third bales arriving in the city.

Last year the first bale was brought here by Doc Payne, who lives north of the city on Caddo. He was also first in 1912, and received a good premium each time.

W. R. MOORE DIED THIS MORNING

PASSED AWAY AFTER A LINGERING ILLNESS. WAS PIONEER BUSINESS MAN OF THIS CITY FOR OVER 20 YEARS.

W. R. Moore, one of the pioneers of this section of the state, died at his home on Stanley boulevard this morning at 1 o'clock after a lingering illness, aged sixty years.

Mr. Moore was a native Texan and has been engaged in the cattle business all of his life, besides his many enterprises. About twenty years ago he came to this city and helped to organize and build the oil mill of which he was the first manager. A few years ago his health began to fail and the best medical skill was brought for his relief. A short time ago he spent some time at Rochester, Minn., where he underwent treatment at the sanitarium of the celebrated Mayo brothers and for a time after his arrival home it was thought that he was permanently cured and on the road to recovery. He began failing again, however, and his condition became so alarming that medical aid was summoned from Dallas, but the end was fast approaching, and this morning at 1:07 o'clock he passed away.

Mr. Moore is survived by his wife and six children, three sons, Will, Arthur and Barton, and three daughters, Mrs. Harold Wallace, Miss Jeanette and Miss Joy, all grown to manhood and womanhood. He was a progressive citizen in all that the word implies; he was ready to enter any enterprise that was for the betterment of the city and community and at the time of his death it could be justly said of him that there was nothing of which the city could be proud, but what he had a hand in bringing about and by his progressive spirit stimulated others to emulate his example.

The funeral services will be conducted from the family residence on Stanley boulevard by Rev. Johnson of the Christian church tomorrow afternoon at 2:30 o'clock, with interment in Rose Hill cemetery.

WILSON WARNS AMERICANS TO STAY NEUTRAL

PRESIDENT SAYS THAT EFFECT OF THE WAR ON THE UNITED STATES DEPENDS ON CONDUCT OF AMERICANS.

Washington, Aug. 18.—The president issued a statement today to Americans in connection with the European war, warning them against partisanship and passionately taking sides.

He said the effect of the war on the United States depends upon the actions of the American citizens and that every man who loves America will act and speak the true spirit of neutrality to all concerned.

Officials close to Wilson said he would take no part in the German-Japanese dispute, and that he was displeased at the efforts, which he believed are being made to embroil the United States in a controversy in the Far East.

OLD ARC LIGHT SERVED USE AND MUST GO

NEW HYDRO-CARBON LAMP GIVES MORE LIGHT FOR LESS MONEY — CITY CAN HAVE MORE LIGHTS.

The lighting contract which the city has with the Ardmore Ice, Light & Power company has practically expired, and a new deal will be made within a short time. W. S. Fraley, commissioner of streets, alleys and public property, who is expected to take the lead in making the deal with the company, was earnestly discussing the matter last night with a number of friends. He said while he was expected to shoulder the responsibility, that he wanted the people of the city to make some investigations and to talk freely the matter over with him.

Mr. Fraley pointed to two lights that were burning last night for the first time on Main street. One is in front of Madden's and the other in front of Westheimer & Daube's. The lights, which were placed there for samples, so the people can know something of their capacity, are called hydro-carbon lamps. They have a candle-power of 600, while the arc light a few feet away has a candle-power of 1200. When you are on the streets at night observe the two, and you will see that the new lamp has a greater lighting capacity than the arc light. The old arc light was an innovation in its time. It has served a useful purpose, it is today being replaced with a better lamp but costs less money.

The town has fifteen arc lights. They can be replaced with twenty-two of the new lights at the same price. The 32-candle-power lamps at the street crossings can be replaced with lights of 60-candle power and fifty-three additional lamps can be added to the service at the same price the city is paying today for lights. The difference is in the light and not in the electric rate.

Only two of the hydro-carbon lights are here, but they are sufficient to demonstrate the difference between them and the old arc light. Samples of the new 60-candle-power lamps for the street corners will be purchased and placed near the plant within a short time, so the people, and especially the members of the board of city commissioners, can observe the difference between the old and the new.

Invention has brought to Ardmore an opportunity to obtain almost twice the lights it has formerly had for the same price per month.

The Want Ads—they pay.
